ABOUT THE COMPANY

KIA INOX is a leading manufacturer of premium-quality stainless steel wires, serving a diverse range of industries worldwide. With a steadfast commitment to excellence, innovation, and customer satisfaction, we are transforming the wire manufacturing landscape, one strand at a time.

KIA INOX INDUSTRIES

OUR FOCUS

Versatile Applications, Endless Possibilities

Textile Industry

Automotive Industry

Medical Industries

Marine Industries

OUR GOALS

Commitment to Quality and
Sustainability

Goal # 1

Stringent Quality Control

Goal # 2

Sustainable Manufacturing

Goal # 3

Continuous Improvement

Empowering Your Vision, Crafting Your Future

01

Stringent quality control measures and the latest manufacturing technologies ensure consistent, defect-free products.

02

We work closely with our customers to understand their unique requirements and provide tailored stainless steel wire solutions.

03

Efficient logistics and supply chain management enable timely and consistent delivery of our products.

04

Our commitment to environmental responsibility is reflected in our eco-friendly manufacturing processes.

OUR PRODUCT

KIA INOX has the ability to manufacture stainless steel wires for braiding, spring manufacturers, wire ropes, etc. To sustain diversity and customer satisfaction, all our production is done under strict process control settings.

DIN	Nominal Wt.	Barrel Dia (mm)	Bore Dia (mm)	Overall Width (mm)	Traverse Length	Coil weight (kg)	Wire Weight	Wire Range
	(gms)	D	D1	D2	L	L	(kgs)	(mm)
125	200	125	80	16	125	100	2	0.10-0.25
160	350	160	100	22	160	128	6	0.12-0.50
200	600	200	125	22	200	160	12	0.20-0.70
250	1050	250	160	22	200	160	20	0.30-0.80

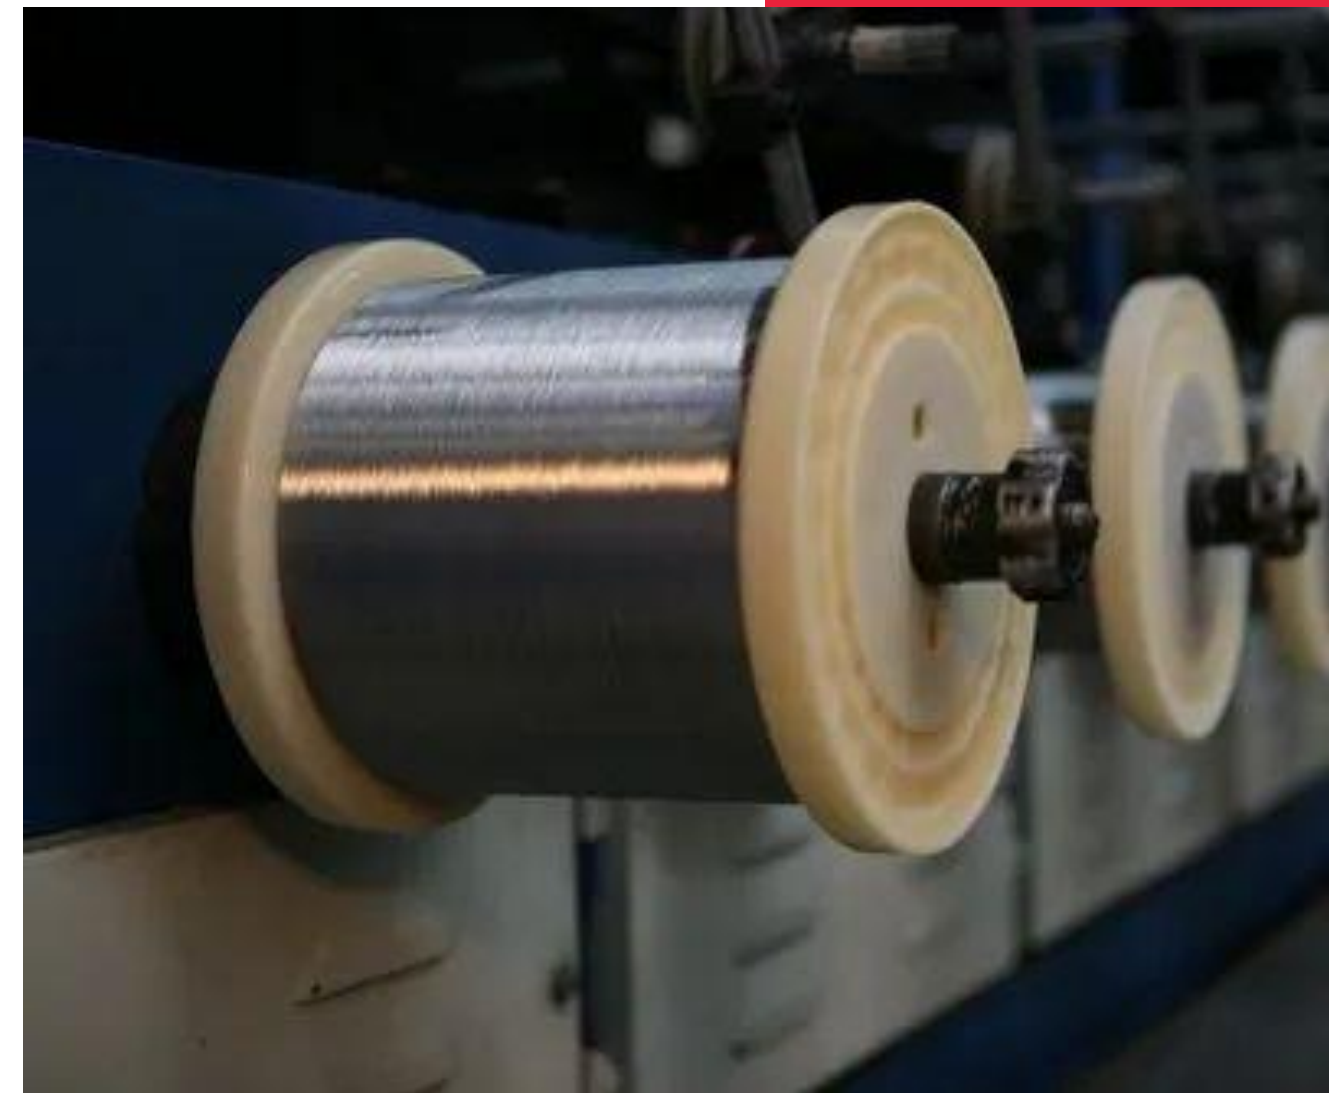

OUR SUPPLY RANGE

****Manufactured Grades, Sizes, and Finishes**

Our manufacturing capabilities encompass a diverse array of grade types, ensuring compatibility with various industrial applications. Among these, we produce popular grades such as 202, 302, 304, and 316, to name a few, each meticulously crafted to meet specific performance requirements. Sizes ranging from 0.10mm up to 1.5mm are available in a bright finish, guaranteeing exceptional surface quality and aesthetic appeal. Additionally, for grades sized 0.30mm and above, we offer a specialized soap coating, enhancing durability and facilitating seamless processing. This comprehensive approach underscores our commitment to delivering versatile solutions that uphold the highest standards of quality and performance across industries.

PRODUCTION CAPACITY

- Current Production Capacity: 70 Metric Tons/month
- Available Free Capacity: 25 Metric Tons
- Vision: Exceeding 100 Metric Tons/month by Year-End
- Quality Commitment:
 - Focus on Quality over Quantity
 - Exclusive Collaboration with Select Clients
 - Diverse Industries Served:
 - Automobile
 - Textile
 - Spring Manufacturing
 - Braiding, etc.
 - Consistent Delivery of Exceptional Quality

PACKAGING

- Various packing options available to suit customer requirements.
- Specialized in providing tailored packaging solutions.
- Emphasis on preserving product freshness and sea-worthiness.
- Fine wires on spools wrapped in stretch film, enclosed in corrugated boxes.
- Additional options include wooden boxes or pallets, as per customer needs.

TESTING FACILITIES

STEREO MICROSCOPE:

- Offers enhanced magnification for precise examination of wire surfaces and defects.

250 KGS ULTIMATE TENSILE TESTING MACHINE

- Specifically for testing physical properties of intermediate wires during production.

100 NEWTON ULTIMATE TENSILE TESTING MACHINE

- Backup testing machine for ensuring consistent quality assessment

All testing for stainless steel wire, as required by our customers, is conducted exclusively by authorized third-party companies.
